MD. Rakibul Islam Ashik

Full Stack Developer **(**Next.js • Node.js • TypeScript **)**

Sherpur, Bangladesh | rakibulislamashik78@gmail.com | +8801607420771

Portfolio | GitHub | LinkedIn

Career Objective :

Motivated Full Stack Developer with hands-on experience building web applications using React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Skilled in developing REST APIs, implementing authentication systems, and creating responsive user interfaces. Passionate about building scalable web applications, exploring AI-powered solutions, and continuously improving technical skills to deliver efficient and maintainable software.

Technical Skills

Frontend : Next.js, React.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, HeroUI, DaisyUI
Backend : Node.js, Express.js, MongoDB, Mongoose, Prisma, PostgerSQL, JWT Authentication
Tools & Others : Git & GitHub, Postman, Vercel, Netlify, Render
Soft Skills : Communication, Adaptability, Learning Agility, Problem-Solving

---

Projects:

- **VanRaz –** AI-Powered Multi-Vendor E-Commerce Platform: Live Link | GitHub (Client) | GitHub (Server)
  - **AI Product Tagging:** Integrated multimodal AI vision to auto-generate product tags, categories, and colors, cutting onboarding time by 70%.
  - **Smart Inventory System:** Engineered an event-driven stock tracker with atomic updates ($inc) and automated low-stock alerts to eliminate race conditions.
  - **Multi-Vendor Architecture:** Architected a scalable multi-vendor system with role-based dashboards (Admin/Vendor), Better Auth sessions, and dynamic CRUD filtering.
  - **Automated CI/CD Pipeline:** Built an automated GitHub Actions & Vercel CI/CD pipeline for instant linting, build verification, and zero-downtime deployment.

  Technologies: Next.js | TypeScript | Node.js | Express.js | Mongoose | MongoDB |Tailwind CSS | JWT

- **MediCare Connect –** Healthcare Management System: Live Link | GitHub (Client) | GitHub (Server)
  - **Role-Based Authentication –** Secure authentication and authorization for Patients, Doctors, and Administrators.
  - **Appointment & Prescription Management –** Book appointments, manage schedules, and access digital prescriptions seamlessly.
  - **Secure Online Payments –** Integrated payment system for fast and secure appointment fee transactions.

  Technologies: Next.js | Node.js | Express.js | MongoDB | React.js | Tailwind CSS | Stripe | JWT | Motion

Education

Diploma in Computer Science and Technology. Ongoing**-(** Sherpur Polytechnic Institute, Sherpur)

Training & Courses

- **Complete Web Development** | Programming Hero *(Certificate)*

Languages :

- English- Intermediate
- Bangla- Native
